About us

Picture frames for wholesale since 1980

History

The DEBEX company has been founded in 1980 in Switzerland, where our headquarter still is located. Starting as a small production company for mirrors and frames, our founders have developed Debex Suisse AG into a modern, customer-oriented organization with its own production facility in Slovakia.

Our production is located in Slovakia, at our partner company Ramex a.s., operating since 1992. Currently, the DEBEX Group employs around 150 employees consisting of production, sales, logistics and associated departments.

Services

Debex provides clients with quality products - fast and tailor made solutions for reasonable prices. Picture frames can be customized - size, glass type, pre-cut mats, facepapers or posters, backboards with individually chosen clips, springs and hangers. Also laser engraving, product labelling, packaging and palletizing is adjustable to the customers' requirements.
