

# Picture Frame Security System

Anti-Theft Security Lock Hangers for Art in Museums, Art Galleries, Hotels, Restaurants and households (kids safety, earthquake).

The Frame Lock Security Hanging System is an anti-theft solution designed to securely mount framed artwork in museums, art galleries, hotels, restaurants, and private homes. It prevents unauthorized removal while providing added child safety and earthquake protection.

## Key benefits:

- Anti-theft protection for framed artwork in public spaces
- Ideal for hotels, lobbies, offices, and other high-traffic areas
- Discreet and robust hanging system for safe display
- Enhanced safety for children and compliance in seismic zones
- Easy installation with secure locking mechanism

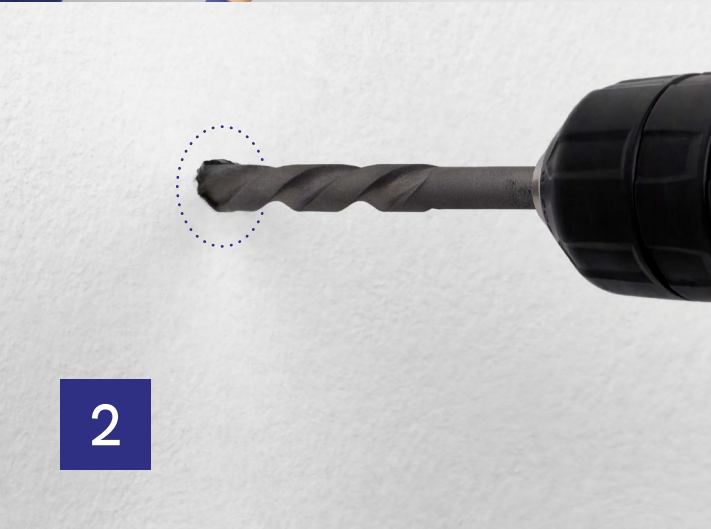

Instruction  
steps

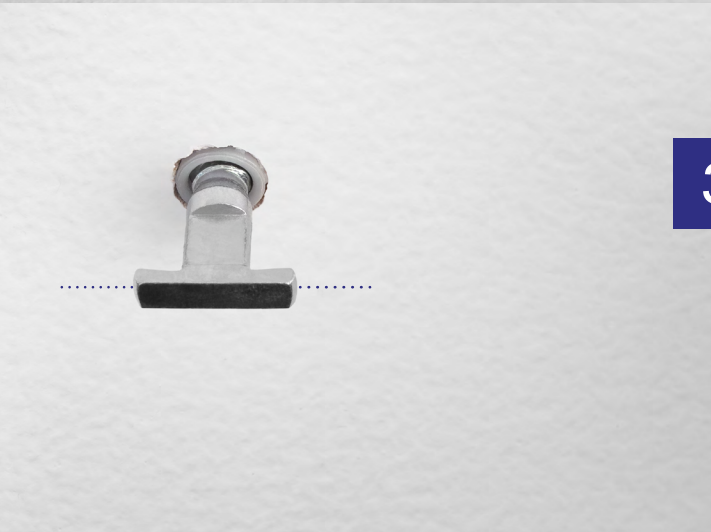

Measure and align the wall holes with the hangers on the frame.

1

Drill holes for the wall plugs.

2

3

Install the wall plugs and T-screws in a horizontal (unlocked) position.

4

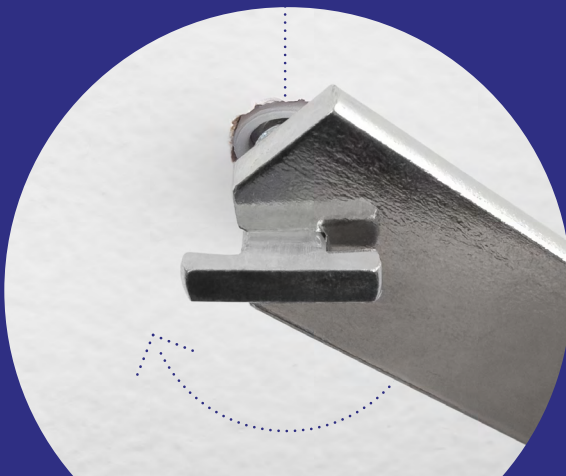

Hang the frame so the T-screws pass through the hanger.

5

Lock the frame using the wrench by turning the T-screws into a vertical position.

**1x Wrench**

**3x Hanger**

**3x T-screws**

**3x Wall plugs**
